## Class 5

### EBSB Activity no. 11 – Cultural Fusion Competition - Games of Maharashtra and Odisha

#### Aankh me Choli - Games of Odisha

#### Kho kho - Games of Maharashtra and Odisha

#### Dangal Pani - Games of Maharashtra and Odisha

## Class 6

### EBSB Activity no. 12 - Literacy Fest – Quiz Competition

**Anchors** – Jaydatta Mangrulkar , Dnyanesh Gawai

**Participants** – Tanvi Choudhary , Ishant Ingole , Krupa Chaukhande , Veer Rathod , Rutuja Londhe , Pranav Upadhye . **Score Keeper** – Ayush Chendalane

# Class 7

## EBSB Activity no. 4 - FLORA AND FAUNA of the paired states

<p><b>Wildlife</b></p> <p>The parks, reserves and sanctuaries that are found in great numbers in the state of Maharashtra are perfect treasures of some of the wild and exotic species of flora and fauna. These are well protected and safeguarded against potential damages due to the excellent initiatives from the government. These wildlife reserves are flocked by local and international tourists.</p> <p>These parks offer great services like safar rides, library, visual and audio aids for guided tours throughout the parks, comfortable staying and camping options in and around the park. Tourists are charged reasonably for these services. Some of the famous wildlife sanctuaries in Maharashtra are at Chappala, Tadoba, Tipeshwar, Chikhaldara, Dapur, Bhamragarh, Navegaon and Bor. The Pench National Park that covers the borders of the two states of Maharashtra and Madhya Pradesh offers camping facilities in the name, Pench Jungle Camp.</p>	<p><b>FAUNA OF ODISHA</b></p> <p>The forests of Orissa nurture a wide and rare variety of fauna from the Royal Bengal Tigers to the giant Asiatic elephants. The state is home to eighteen wildlife sanctuaries, three national parks and three wildlife reserves. The forests serve as abode for Leopards, Lion Tailed Macaque, Barking Deer, Giant Squirrel, Indian Pangolin, Mouse Deer, Chowsinghas, Flying Cat, Sloth Bear, Sambar and Wild Dogs. It is also the habitation for reptiles such as Cobra, Python, Gharial etc.</p>	<p>The state of Odisha houses very rare species of flora comprising Orchids and Mangroves. The Bhitarkanika sanctuary is home to large variety of mangroves and thus the second largest Mangrove ecosystem of India. While the southern and western parts of Orissa are predominated by lush green forests, the eastern plains are extremely fertile lands owing to their proximity to their proximity to the coastal region. Moreover the forest of the state are populated with trees of Teak and Bamboo along with some trees of medicinal values and some kendu plants. These forests are mainly classed into tropical dry deciduous forest and tropical moist deciduous forest that are outnumbered with rosewood, Haldi, Sal, Sanghvan and Piasal trees. Balukhanda and</p>

### Fauna of Maharashtra

Once Malabar Hill was a forested area with varieties of flora and fauna. According to the Maharashtra State Gazetteer Volume 1, Greater Bombay District. There was thick jungle on the slopes of the Malabar Hill and the rear a pathway known as Shidi from Malabar Hill to Gamdevi through groves and Babul plantations. It is further mentioned, after ascending Walkeshwar road one noticed half way up, a winding lower road leading to the Government house which together with the upper road was lined with well-tended trees, shrubs and creepers. This road was first constructed by Lord Elphinstone 1853-1860. But due to urbanisation, the forest at Malabar hill almost disappeared except the areas like Raj Bhavan which are out of reach due to restricted entry & Tower of Silence near Kamia Nehru Park, which is open only for a particular community. The Raj Bhavan area
