Ek Bharat Shreshtha Bharat

Report on Activities held in School in the Month of January, 2022

Nodal Teacher in charge : Jayshree Shegokar

Paired States : Maharashtra – Odisha

As per CBSE Guidelines & Circular No. ACAD-83/2021 Dated - September 21, 2021, Noel School, Akola organizes Activities on the model One Activity One Class. Out of the 21 Activities suggested by CBSE under EBSE, different activities are selected by the Class Teachers of Class 1 to 10 and every month one sub-activity under the main activity is organised based on the paired state of ODISHA. The students have participated overwhelmingly showing their keen interest and inquisitive nature to get to know more about the state of ODISHA. Here are some pictures of the various activities organised in the school in the month of January, 2022 based on Ek Bharat Shreshtha Bharat.

EBSB Activity no. 13 - Project on the culture , customs, dress, agriculture, cuisine, flora fauna, climate and topography of Odisha.

CLIMATE OF ODISHA

- Standing on the coastal belt, the weather in Odisha is greatly influenced by the sea. The climate of the region is tropical resulting in very high temperature in the months of April and May. On the contrary, the Eastern Ghats of the state experience an extremely cold climate.
- The climate in Odisha - There are three major seasons - Summer (March-June), Rainy Season (July-September) and the Winter (October-February). Odisha lies just South of the Tropic of Cancer, has a tropical climate.

Bhushan Newalkar

Bhushan Newalkar

It is warm almost throughout the year in the Western districts of Sundergarh, Sambalpur, Baragarh, Bolangir, Kalahandi and Mayurbhanj with maximum temperature hovering between 40-46°C and in winter, it is intolerably cool. In the coastal districts, the climate is equable but highly humid and sticky. The summer maximum temperature ranges between 35-40°C and the low temperatures are usually between 12-14°C. Winter is not very severe except in some areas in Koraput and Phulbani where the minimum temperature may drop to 3-4°C.

- The average rainfall is 150 cm, experienced as the result of southwest monsoon during July-September. The month of July is the wettest and the major rivers may get flooded. The state also experiences small rainfall from the retreating monsoon in the months of October-November. January and February are dry.
